## Bursary Program for Hockey Players

### *Edmonton Oilers*

The Edmonton Oilers announce they will introduce a bursary program for hockey players, starting with the upcoming school year. Team owner Peter Pocklington says five young players will receive \$1,500 bursaries to attend The University of Alberta this year, and they will continue to receive \$1,500 a year throughout their four years of university. Each year, another five players will be added to the bursary list, bringing the total involved in the program at the end of the first four years to twenty players.

Mr. Pocklington says he has always felt very strongly that private industry, rather than government should become involved in helping to keep Canadian athletes in Canadian universities, and the growing trend of Canadian hockey players attending American universities on athletic scholarships has to be stopped.

As a measure of his respect for the man, Mr. Pocklington announces the program will be known as the Henry Singer Memorial Bursary Fund. The Oilers' owner says most people were familiar with Mr. Singer's involvement with the Edmonton Eskimos, but what is not as well known is that he had a long association with all sports in the city. In Mr. Pocklington's words, "Henry Singer was a pillar of

strength in this community in so many ways, and I think it's vital that we in some way show our respect."

A spokesman for the Singer family says, "We are extremely pleased and proud to be associated with this program, because Mr. Singer always stressed the importance of athletes continuing their education." It was always Mr. Singer's wish that hockey players, especially, follow the lead of

football, in attempting to ensure players graduate from college before entering the professional level.

The bursary fund, which will be paying out \$30,000 a year at the end of the fourth year, will continue for at least ten years, and it is the hope of Mr. Pocklington that other Canadian owners will follow his lead in helping Canadian athletes to further their studies at home, while still being provided with the challenge of

top-level university hockey.

University of Alberta Golden Bear Coach Clare Drake describes the bursary program as an excellent idea, and notes he looks forward to working in cooperation with the Edmonton Oilers in choosing the players who will benefit. Drake points out they will be chosen on the basis of their academic standing and their athletic ability. □

## Statphys 14

The fourteenth international conference on thermodynamics and statistical mechanics, Statphys 14, will take place at the University of Alberta from 17 to 22 August. This is the first time a conference in this series has been held in Canada; the most recent previous conferences having been held in Haifa, Israel (1977); Budapest, Hungary (1975); and Amsterdam (1973). Statphys 14 is being organized by a twelve man committee drawn from the Departments of Physics, Chemistry, Electrical Engineering, and Energy Management under the chairmanship of Dr. D.D. Betts and the coordination of Ms. Chris McLaren. Financial support has been obtained from the University of Alberta, the Province of Alberta, the Natural Sciences and Engineering Research Council of Canada, and the International Union of Pure and Applied Physics.

Some five hundred scientists from approximately thirty countries are expected to attend. Scientific sessions will take place in the Physics and Chemistry Buildings. Thirty particularly distinguished physicists and

chemists will deliver invited talks of forty to fifty minutes' duration. An intriguing sample of the titles includes "Melting of a two dimensional crystal of electrons," "Rhythms and turbulence of a population of chemical oscillators," and "Interpretation of the unusual behaviour of water at low temperatures." The texts of the invited talks will be published as a special issue of *Physica A*, a prestigious physics journal published in Amsterdam. Guest editor for this issue will be Dr. John Stephenson of the University of Alberta.

In addition to the invited talks, some 350 other "contributed" papers will be presented at Statphys 14. The majority will be presented as twenty minute lectures but nearly half of the papers will be presented instead in poster sessions reminiscent of high school science fairs. The principal results of such papers will be posted on four feet by eight feet boards hung in the mall of the Chemistry Building. The authors will be in attendance to answer questions and discuss their results with interested colleagues. Dr. Jurgen Kreuzer of the University of Alberta is in

charge of contributed papers.

As an unfortunate result of the present international situation, no Soviet scientists will attend Statphys 14. Their numbers included three invited speakers and the chairman of the international sponsoring organization. On the other hand, four physicists from the People's Republic of China, never before represented at Statphys conferences, will attend. Indeed, one of the invited speakers is from China.

A feature event of the conference will be the presentation of the third Boltzmann Gold Medal for outstanding achievement in thermodynamics and statistical mechanics. The winner this time is Dr. Rodney Baxter of the Australian National University in Canberra. At the opening ceremonial session the medal will be presented to Dr. Baxter in recognition of his remarkable exact solutions of some of the most difficult problems in statistical mechanics.

The organizers believe that everything necessary to make the conference a success has now been arranged except perhaps the weather! □

## New Chairman Appointed to Dentistry

At its regular monthly meeting, on Friday 8 August, the University of Alberta Board of Governors announced the appointment of Dr. Charles Baker as Chairman of the recently established Department of Stomatology within the Faculty of Dentistry. Dr. Baker's duties will commence 15 August 1980 and will extend for five years.

A native of Winnipeg, Manitoba, Dr. Baker obtained his Doctor of Dental Medicine from the University of Manitoba in 1968 and received his Master of Science in Dentistry from the University of Toronto in 1975. He was awarded his Specialist Certification and became a member of the FRCD(C) (Fellow of the Royal College of Dentists, Canada) in 1978.

Prior to joining the Faculty of Dentistry at the University of Manitoba in 1970, he held a general practice in that province for two years. He was with the University of Manitoba for ten years and held teaching appointments in dentistry, medicine, and dental hygiene, and radiology.

Dr. Baker is a member of the Canadian and American Academy of Oral Radiology, the former which he founded, and the Radiological Society of North America. He was awarded a Medical Research Council Fellowship and the Western Canada Dental Society Award as well as having received a number of other dental-related research grants.

The Department of Stomatology is the amalgamation, into one department, of the divisions of oral diagnosis and radiology; oral and maxillo-facial surgery and hospital dentistry; orthodontics; pedodontics; and periodontics. □

## Tuition Fees—A Buyer's Guide

According to Statistics Canada, among the fifty-three universities in Canada, Alberta universities are second only to Quebec universities as far as competitive tuition and residence fees are concerned.

At \$340 the University of Montreal offers by far the lowest fees available for one year of Arts in the 1980-81 term. Other Quebec universities aren't far behind, and universities in Alberta, Manitoba, and Newfoundland still look attractive at below \$600.

If this does not ease the pain of signing that cheque, let Trinity Western College in British Columbia serve as a

reminder of how much worse things could be. One year of Arts at Trinity costs \$1,990 for the coming school year.

It appears that everything in the Maritimes is down except for tuition fees. One year of Arts in the remaining three eastern seaboard provinces will cost students as much as \$935.

Fees for one year of Arts in Ontario's universities are generally between \$800 and \$900, although some like Ryerson in Toronto do have competitive fees at \$590.

Many of the faculties other than Arts charge higher tuition fees, but the price relationship from one region to the next remains about the same. □

## New Professorship Established

### Faculty of Engineering

The Alberta Construction Association has announced that it has established a professorship in Construction Engineering at the University of Alberta to commence in the 1981/82 academic year for an initial three year period.

Mr. Ken Pelland, Chairman of the Board of the ACA, said that the academic position has been established with the goal of providing undergraduate engineering students with an increased exposure to and a basic understanding of the construction industry in Alberta.

At the University, two Faculties are cooperating to support the professorship. Dean C. Lockwood, Faculty of Extension, said that the appointee will play an important role in the area of continuing education by coordinating courses that will be provided for professional engineers. Dean P.F. Adams, Faculty of Engineering, noted the importance of construction

activity in Alberta. He said that the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGGA) Edmonton Education committee had helped to assess both the needs of industry and the best method of responding to those needs in the engineering curriculum. He was especially pleased that the University of Alberta had been selected for the professorship.

The Alberta Construction Association committee responsible for industry input and liaison to the professorship is chaired by Mr. Dennis McCarthy, President, Western Caissons Ltd. The Committee members are Mr. F. Maquire, President, Cavan Construction Ltd., Mr. J. Moorhouse, Senior Vice-President, Wimpey Western Ltd., Mr. J. Thompson, Regional Vice-President, PCL Construction Ltd., Mr. J. Hole, General Manager, Lockerbie & Hole Western Ltd. □

devoted to questions of natural law in the era of the French Revolution. Professor Liebel-Weckowicz attended a business meeting of the editorial panel of the *Canadian Journal of History*, and continues to serve as corresponding editor of *Europe*. She is a member of the editorial panel of the American Eighteenth Century Society's *Yearbook*. During 1979-80 she served on the national executive of the Canadian Eighteenth Century Society.

R. Flanagan, A. Noujaim, and L. Wiebe, Faculty of Pharmacy and Pharmaceutical Sciences, and J. Scott, Edmonton Radiopharmaceutical Centre, attended the Third International Symposium on Radiopharmaceutical Chemistry in St. Louis, 16 to 20 June. A poster paper "Radio-(Z)-1,2-bis (4<sup>1</sup>-hydroxyphenyl)-1-iodo-1-propene" was contributed by R. Flanagan, B. Lentle, D. McGowan, and L. Wiebe.

The following research presentations were made by members of the Faculty of Pharmacy and Pharmaceutical Sciences and colleagues at the 23rd Annual Meeting of the Canadian Federation of Biological Societies in St. John's, Newfoundland, in June.

—G.B. Baker, D.F. LeGatt, R.T. Coutts, and A. Benderly, "Optical isomers of mono-fluorinated amphetamine: effects on uptake of catecholamines in rat brain *in vitro*."

—D.F. Biggs, D. Lopatka, S. Maslyk, and D.J. Carmichael, "Interaction of lysosomal enzymes with gold salts."

—E.E. Hargesheimer, R.T. Coutts, G.B. Baker, and F.M. Pasutto, "Determination of trace quantities of aminophenols in water by electron-capture gas chromatography."

—D.F. LeGatt, G.B. Baker, R.T. Coutts, and D. Calverley, "Separation and analysis of biogenic phenolic amines by electron-capture gas chromatography."

—M.A. Peterson and D.F. Biggs, "The effects of atropine methiodide, hexamethonium, and trimethaphan on serotonin-induced airway constriction."

### Non-Credit Courses

#### Faculty of Extension

The following courses are among those which will be offered during the fall and winter of 1980/81.  
*Management for New Managers; Management of Personal Finances; Managing Investments.* For further details please call 432-5066 or 432-5067.

### Notices

**Garry Van Petten Memorial Fund**  
A trust account has been established at the University of Alberta for the purpose of providing a scholarship in the name of the late Dean Van Petten.

The scholarship will be awarded annually to the student registered in the Faculty of Pharmacy, University of Alberta, who obtains the highest mark in Pharmacology.

Contributions should be made payable to the "University of Alberta for the G.R. Van Petten Memorial Fund," and addressed to: Office of the Dean, Faculty of Pharmacy and Pharmaceutical Sciences, University of Alberta, Edmonton, Alberta, T6G 2N8.

Official receipts will be issued by the Office of Student Awards of the University of Alberta.

**Emergency Housing**  
Emergency housing is available through Housing and Food Services, Lister Hall, from 15 August to 15 September 1980.

The accommodation offered is dormitory style—normally limited to

three nights—at a cost of \$6 per night.

If this type of housing will help you out, please apply at the Front Desk, Housing and Food Services, Lister Hall, University of Alberta. For further information and/or registration call 432-4281.

### Home Fitness Test

Families are needed to participate in a free fitness test which will be conducted in their homes the evening of 27 August 1980. If interested, reply in writing to: Dr. A. Quinney, Faculty of Physical Education, University of Alberta, Edmonton, Alberta, T6G 2H9.

Please state the number of family members, your address and phone number.

### International Student Orientation

An orientation program for newly arrived international students will be held from 26 August to 30 August. For further information contact the International Student Office, Room 225, Athabasca Hall, 432-4145.

### Reception Service

The International Student Office requires volunteers to meet new international students at the airport upon their arrival. Return mileage will be paid. Telephone 432-4145.

### Mature Student Orientation

On 26 August the Office of Student Affairs will be conducting an orientation program for students who will begin their studies after an extended absence from a school setting. Further information is available in Room 225, Athabasca Hall, 432-4145.

### Study and Writing Skills Workshops

An evening program to improve your academic skills will be conducted 3 and 4 September. Contact the Office of Student Affairs, Room 225, Athabasca Hall, 432-4145, for details.
